

## Confined Space Training with breathing Apparatus

**RIIOHS202A Enter and Work in Confined Spaces**  
**MSAPMPER200B- Work in Accordance with an Issued Permit**  
**MSAPMOHS216A- Operate Breathing Apparatus**  
**MSAPMOHS217A- Gas Test Atmospheres**

### Course Overview

Through the combination of theory and practical this training program has been constructed utilising units of competence from the Resources and Infrastructure and Manufacturing training packages with the aim of providing participants with multiple units that complement each other providing a better defined outcome, and a broader knowledge and skills. The course provides the necessary skills required as per Australian legislation to those who work in or are supervising those working in a Confined Space. The training includes breathing apparatus use. Course can also be customised to meet specific requirements.

The Unit of Competence RIIOHS202A has been nominated as the required training for people conducting work in a confined space for Sydney Water.

### Course Outline

- Reference documents / legislation
- How to identify a Confined Space as per AS 2865:2009
